

Faculty of SCET
Swinburne University of Technology
SWE30003 Software Architectures and Design
Tutorial Week 1
(Introduction & Group Formation)

1. A brief introduction of the unit.
2. Group formation: In this semester, assignments and tutorials are mostly done in groups. Please
 - (1) Form groups of 3~4 students from your tutorial;
 - (2) Introduce yourself to the group;
 - (3) Nominate a group contact person, complete the group formation page (available on Canvas), hand/email it to your tutor, AND keep a copy for yourselves for future reference.
3. Discuss in your group: What do “software design” and “software architecture” mean to you?
